Keeping your residents happy and you happier.

Whether you are specifying products for a luxury penthouse suite or for affordable housing units, Symmons products will not only uphold your brand standards in designs that will appeal to residents, but also stand up to the test of time. Symmons plumbing solutions guarantee the safety, comfort, and efficiency of water experiences, while providing ease and speed of future renovations and upgrades. As the pioneers of the first anti-scald pressure shower valve, you can trust in our 80 years of experience in innovation and attention to quality, durability, and reliability.

**Built to last. Designed to stand out.
And backed by a customer-first culture.**

MULTIFAMILY SOLUTIONS

Broadstone Balboa Park San Diego, California

One of San Diego's newest housing complexes elevates the living experience not only with its views but also its curated design. Exclusive designers created a one-of-a-kind interior design that incorporates bespoke fixtures, including the Symmons Design Studio™ single handle lavatory faucet inspired by the Duro® Collection.

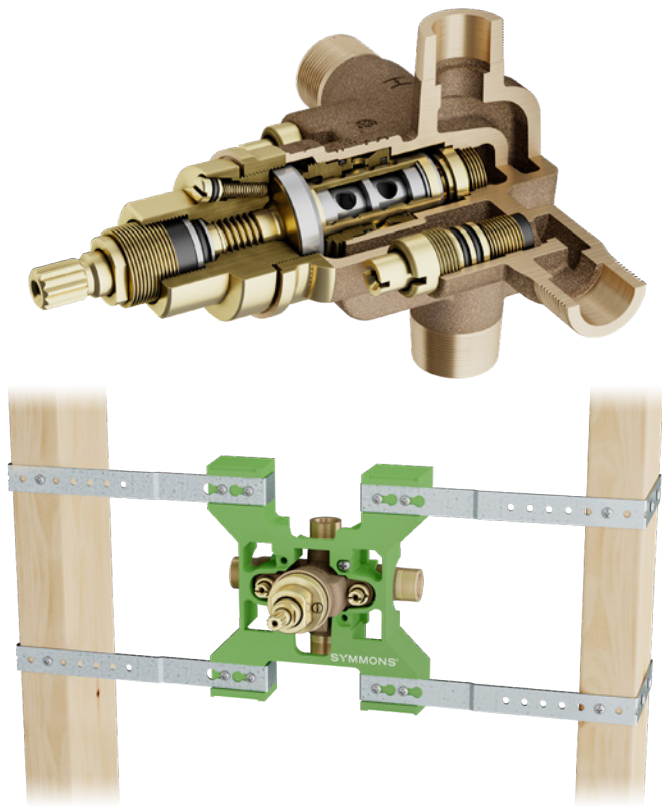

Ink Block Boston, Massachusetts

National Development's multi-building project, Ink Block, named after its location on the site of a former Boston newspaper facility, has made an impression. Ink Block consists of three apartment buildings and a luxury condominium building. A carefully crafted combination of Symmons products from the Dia®, Duro®, and Sereno® Collections, as well as custom 8" rain shower heads distinguish each property.

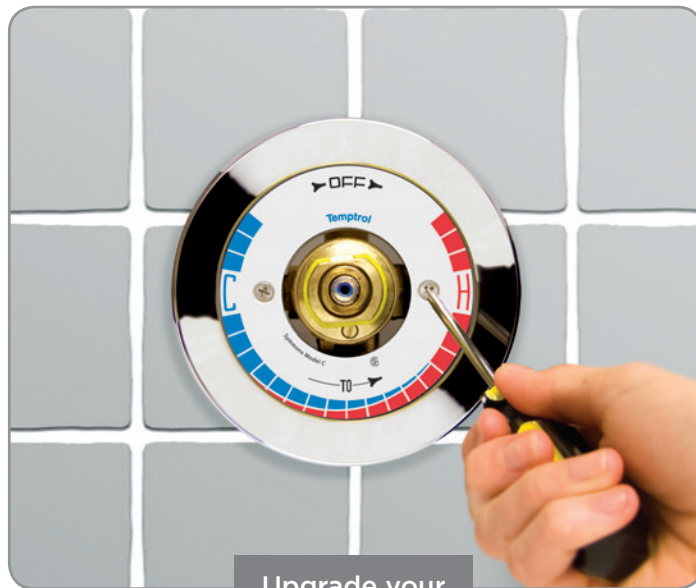

TEMPTROL® SHOWER VALVE

Introducing the New and Improved TEMPTROL® Shower Valve

One Great Valve, Many Design Choices

With a Symmons Temptrol valve behind the wall, you can upgrade to any Symmons trim in a variety of designs to quickly and inexpensively enhance any bathroom décor.

Upgrade your aging trim to any one of these:

The Highest Quality Shower Valve in the Industry, Now Faster and Easier to Install.

The Symmons Temptrol pressure-balancing, anti-scald valve has been long associated with durability and quality. Showers installed in hotels, schools, and homes worldwide share a common trait: they are powered by the Symmons Temptrol valve.

Beautiful designs may cover the superior functionality that resides behind the wall, but it is the Temptrol valve that is the power behind our showers.

MULTIFAMILY GREEN FINANCING

Commit to Saving Water. Save Big on Water-Efficient Fixtures.

Apartment property owners are finding a range of loan financing options through Freddie Mac and Fannie Mae's green incentive programs. The Symmons Multifamily specialists can help you explore financing opportunities.

SYMMONS® DESIGN STUDIO™

It all starts with an idea. Imagine something unique. A faucet, a shower system, or accessory different from anything you've ever seen. Now imagine it's built with the highest quality parts from the inside out, backed by a customer-first culture. From ideation to creation. Welcome to Symmons Design Studio. Since every project is unique, our Design Consultants help guide you into a solution that is perfect - whatever your timetable or budget - turning your ideas into equity-building, one-of-a-kind designs.

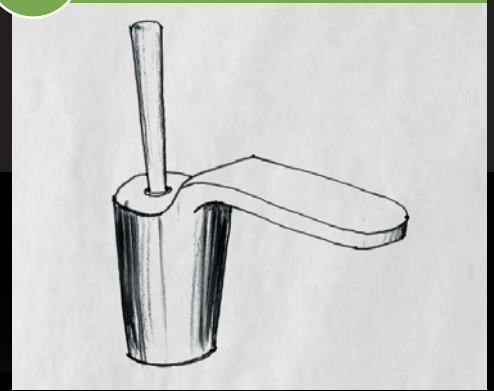

Our Process

Collaboration is the hallmark of everything we do. Our Design Consultants help guide your project through our 4-step process. →

SYMMONS PRODUCTS

From the studio to the penthouse floor, you will find Symmons products that will appeal not only to your residents, but also to property and facilities managers. Symmons products are durable, easy to maintain, and available in low flow rates to reduce water and heating costs.

SYMMONS FINISHES

Symmons offers a full line of products in a wide variety of unique and durable finishes. Radiance® PVD extends the life of the product while offering a timeless look that endures. Mild soap, warm water, and a soft cloth are all you need to keep your faucets looking beautiful.

Symmons Products Can Help Achieve LEED® Certification

The U.S. Green Building Council (USGBC) developed the Leadership in Energy and Environmental Design (LEED®) Green Building Rating System™ as the nationally accepted benchmark for high performance green building design, construction, and operation.

LEED-certified buildings conserve our natural resources, reduce operating costs, and result in healthier, more productive occupants. To earn LEED certification, a building project must earn a certain amount of credit points in key areas of sustainable design, including water conservation.

LEED Water Efficiency Credit 3.1: Water Use Reduction: 20% (1 point)

LEED Water Efficiency Credit 3.2: Water Use Reduction: 30% (2 points)

Symmons Water Efficient Products	Showerheads & Hand Showers	Lavatory Faucets	Kitchen Faucets
EPAct '05***	2.5 gpm (9.5 L/min)	2.26 gpm (8.3 L/min)	2.2 gpm (8.3 L/min)
20% reduction	2.0 gpm (7.6 L/min)	-	-
30% reduction	-	1.5 gpm (5.7 L/min)	1.5 gpm (5.7 L/min)
40% reduction	1.5 gpm (5.7 L/min)	-	-
54% reduction	-	1.0 gpm (3.8 L/min)	-
77% reduction	-	0.5 gpm (1.9 L/min)	-

* "LEED" and related logo are trademarks owned by the U.S. Green Building Council and are used by permission.

** Reduction in total indoor water use-water closets, urinals, lavatory faucets, showers, and kitchen sinks. Must be calculated to determine LEED points earned.

*** Water use baseline calculated for buildings meeting Energy Policy Act 2005

THE SYMMONS STORY

At Symmons, we've built a foundation of quality craftsmanship by placing a premium on exceptional service. It's an inner strength and outward focus that makes Symmons the smart choice.

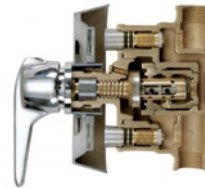

Symmons Industries was founded by Paul Symmons

1939

Paul Symmons set up shop in the vacant Chickering Piano Building in Boston, Massachusetts

1939

Designed the first pressure-balancing valve

1939

Developed TempControl® Thermostatic mixing valve that set the standard by delivering consistent and safe water to fixtures in commercial and residential applications

1958

Symmons moved to a larger facility in South Boston

1956

World War II
During World War II, Symmons received an award for product excellence in supplying essential parts for the construction of U.S. Naval torpedoes

1941

Symmons moved to Braintree, Massachusetts to expand its facility and increase mass production techniques

1967

Symmons introduces the revolutionary pressure-balancing Temptrol® valve

1968

The SCOT® Metering lavatory faucet revolutionized commercial lavatories with the adjustable slow close cartridge, controlling temperature and conserving water, decades ahead of its time

1982

Symmons launches the **Identity™** Collection, inspired by the individuality of our customers' projects

Symmons launches **Temptrol Rapid Install™**, the highest quality shower valve in the industry, now faster and easier to install.

Symmons releases **Symmons Water Management**, the first-ever connected hotel water management platform.

2016

2019

Symmons develops **Origins®** and **Unity®** to support growing entry-level Multifamily housing market

Brand new 25,087 sq. ft. **Global Symmons Headquarters** opens in Braintree

2015

2014

3rd generation **Tim O'Keeffe** becomes CEO

Symmons launches **Dia®, Duro®, Elm®** which become some of the most popular Symmons product offerings

2010

2011

Allura®
Ballina®
Canterbury®
Carrington®
Degas®
Lucetta

Symmons launches its first line of **premium Collections**

2006
